

# MINING TRAINERS

ATA is a national leading Registered Training Organisation. Due to continued growth, various opportunities currently exist for Mining Trainers to join our Adelaide based team to expand our training, workforce development and employment services.

If you have mining experience (Open Cut, Underground, Drilling, Blasting, Processing, etc...) and

- Tired of the FIFO lifestyle?
- Prefer more work-life balance?
- Want to share your mining expertise and skills?

ATA is seeking motivated and experienced trainers to join our team.

The positions' primary responsibility will lie in the coordination and delivery of all training/assessment activities that meet ATA's and national industry quality standards. Reporting to the General Manager, Learning & Development you will demonstrate a personal commitment to customer service delivery and the use of appropriate training styles that engage and motivate students.

With an established career history in the mining industry, it is essential that the successful applicants will possess the following:

- Training Qualification
- Experience in training employees in a mine site environment
- Demonstrate knowledge of current development and practices in the field of training
- Competent using MS Word, PowerPoint and Excel.

Possession of any high risk licences, registered assessor status in SA and knowledge of AQTF would be desirable.

An Attractive and competitive salary will be offered to the successful candidates.

**Please forward your application in confidence to:
